1 Air Quality in Taiwan

The data source comes from 2014 to 2019

2 PM2.5 by year

3 PM2.5 by month

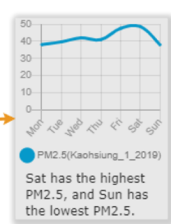

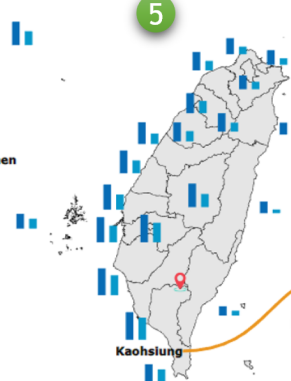

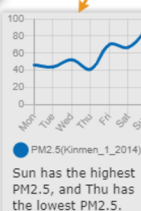

PM2.5 by city

4 6.9% in Kinmen in Jan, 2014

5 8.4% in Kaohsiung in Jan, 2019

PM2.5(1_2014)
PM2.5(1_2019)

6 PM2.5 in Kinmen is the highest value in 2014, but in 2019, Kaohsiung became the most polluted city, while Kinmen fell to the fourth place. We can see that the distribution of PM2.5 in each city in 2019 decreased compared to 2014. Cities in eastern Taiwan have significantly lower pollution, while cities in southeastern Taiwan and outlying islands have higher pollution.
